

March 2009

To whom it may concern:

We confirm that our 400 series carton sealing tapes with water based acrylic adhesive do not have the following products intentionally added during the manufacturing process:

Lead
Mercury
Cadmium
Hexavalent chromium

To the best of our knowledge, this information is accurate and reliable as of this date based on currently available data regarding raw materials. Please note that we do not test our products for the presence of these substances on an ongoing basis.

We are at your disposal for any further elaboration.

Thank you.
